General Boat Description

Kulani is a nice example of a laid back, comfortable cruiser with room to stretch out while living aboard or to entertain multiple guests while exploring the coast. She has a spacious interior with plenty of headroom and lots of natural lighting in this open layout. Outside, the cockpit area has room for outdoor furniture to relax and enjoy the great views. Molded in stairs provide safe access to the flybridge and helm which features ample seating and well positioned controls and instrumentation. Access to the bow is made easy with clear side decks with a tall, welded bow rail and handrails. She is pushed by strong fresh water-cooled Crusader 7.4L engines that have seen recent updates and service including new longblock on starboard side. Make an appointment today to see this live aboard Carver!
