## **General Boat Description**

If you are looking for a versatile, easy to handle, single diesel cruiser with modern amenities and an innovative layout, come check out this "Luxury Edition" Cutwater soon! With features like dual air-condition/reverse cycle heat systems and a 5-kW diesel generator, you can cruise in comfort year-round. Bow and stern thrusters will make docking easy, even with an audience!

This East Coast boat has been professionally cared for and serviced twice annually at a Volvo certified marina. She has about 300 hours, is in great shape, and ready for cruising. The entire six battery bank was new as of Spring of 2025. She has all new trim tab cylinders, repacked stuffing box, and the bimini canvas is in great shape along with all seat, dash, and windshield covers. The hull has been professionally waxed and the bottom painted annually including in Spring of 2026. Due to a variety of life events, the sellers will no longer be able to use her in the way she should be enjoyed, so their situation is your gain, and this beautiful boat will be a terrific Cruiser for many years to come.

Cutwater's latest variation of the stylish C30 features upper and lower helm stations for expanded cruising options. With seating for four on the command bridge and a helm seatback that flips forward to face the aft seat and table, you and your guests can enjoy the best view in the harbor. The C30 Command Bridge features a retractable fiberglass command bridge dash for trailering that enables distant locations to be within easy reach. Access to the command bridge is made safe via secure stairs and handrails. This family cruiser offers all the advantages of Cutwater's C30, in a large boat that provides spacious interior room, a long list of standard features and comfortable onboard living. An ingenious new cockpit seating arrangement welcomes up to eight adults without crowding, and a new Euro-style galley conceals appliances beneath a hinged countertop that is ideal for buffet or refreshment service.

The Cutwater 30 Command Bridge accommodates six guests in three separate berths, for exceptional privacy and comfort even on extended cruises. On the foredeck, two flush hatches open to reveal cushioned, secure observation seats, along with a central forward lounge. Add to this a long list of other features, and the reliable performance of a 435-h.p. Volvo inboard for efficient express service to distant waterways, and you have a versatile cruiser that ensures unsurpassed enjoyment, year after year.
