General Boat Description

This could be your chance to own a 2012 Oyster 54 at a fraction of the cost of comparable models on the market. "*Belle*" is an ideal opportunity for buyers who have always dreamed of owning an Oyster and are ready to take on a rewarding restoration project.

Designed by Rob Humphreys, the Oyster 54 is a proven blue water cruising yacht known for its balance of offshore performance and comfort. Her spacious three-cabin layout and large salon provide plenty of room for family and guests, while features such as a watermaker, generator, and Selden in-mast furling system make her well-suited for extended cruising and passagemaking.

"*Belle*" does come with a significant history. During Hurricane Irma in 2017, the vessel was knocked onto her starboard side and remained there for several months. After being righted, a fire broke out in the aft cabin and was extinguished using saltwater. The vessel sustained hull damage above the waterline on the starboard topsides. Fiberglass repairs were completed on the starboard side.

The current owner purchased the vessel in 2018 with the intention of restoring the interior while living aboard and cruising. He has lived aboard since then, and he recently has sailed her to Deltaville, Virginia. Due to health-related circumstances, the project remains unfinished, leaving an excellent opportunity for the next owner to bring her back to her full potential.

The vessel has been imported for sale in the U.S., is currently insured, and a 2018 survey is available for review. If you are looking for an iconic offshore cruising yacht with incredible potential and are willing to put in the work, "*Belle*" may be the perfect fit.
