Engine Model: 4LHA-HT

Engine Type: Inboard

Engine/Fuel Type: diesel

Engine Hours: 2263

Engine Power: 160|horsepower

Tanks

Fresh Water Tanks: 1250Gallons

Fuel Tanks: 1256Gallons

General Boat Description

RECENTLY REDUCED! This is a must see! Designed by Bill Stevens and Robert Perry, Seeker was built with comfortable long-range cruising in mind. The high freeboard allows for a very spacious interior with room for a family of 6 to live aboard full-time and the shallow draft of only 5 feet promotes skinny water exploring or long-distance blue water cruising. Her easily handled rig with boom furling, electric winches, and self-tacking headsail means that she can be sailed easily if short-handed. Seeker was acquired by the current owner in 2014 and has been updated with Garmin instruments and a full cockpit enclosure which allows for topside enjoyment even when the conditions are less than fair. She was recently hauled and bottom painted with new anodes installed so she is ready for immediate enjoyment. Please see the "Other Details" tab for a complete list of features then call us for an appointment to see this rare opportunity.
